Preparation of our cars

Our standards are high, and all pre-owned cars have a thorough 'pre-sales' check in our workshop. This check typically takes about 3 hours and provides us with a complete picture of a car, its good points and any areas needing attention.

Before handing over a car to its new owner it is serviced as required and any points identified in the pre-sales check as needing attention are addressed. A 12 month MOT (where applicable) is also provided.

For additional peace of mind, we also HPI check our cars and all used cars sold for use within the UK come with a comprehensive 3 month warranty.
